PREFACE.

In presenting to the public the forty-second volume of the Troy City Directory, the publishers would call the attention of its patrons to the fact of the constant increase of matter furnished with each successive issue, and of the care and attention necessarily given to the compilation of such a work, extending, as it now does, over a territory of more than ten square miles.

From the beginning to the close of our labors upon this volume, we have aimed at accuracy and completeness. Not a building within the limits of Troy, Lansingburgh, West Troy, Green Island or Cohoes, has been passed by our canvassers without making a good effort to secure the names and business of all the occupants. But, notwithstanding this, it is reasonable to expect that some few errors and omissions have been made, and when the magnitude of the work is considered, and that it is made up almost entirely of names and figures, we believe no one can fairly expect a greater degree of perfection in a Directory; therefore we ask the indulgence of those who seek in vain for their names, or who find them not correctly inserted, and we urgently request all such to give us immediate notice of the same that we may be able to insert them correctly another year.

The Troy city map has been corrected to the present time, giving the boundaries of the new wards created during the last session of the State Legislature, and such other alterations as the natural growth of the city have made necessary.

Our advertisers are among the leading business men of the city and immediate vicinity, to whom we would call the attention of our patrons for information in almost every department of business.

In our last issue (1869), we gave the names of eighty-six persons which appeared in the first Directory published in this city (1829), whose names also appeared in the edition of 1869. During the past year seven of that number have been called to another, and we trust a better world; and we think it not improper to give their respective names a place in this connection with the date of their decease, as they were among our most worthy and respected citizens, and each contributed to build up and sustain our reputation as a city in their respective spheres, viz.: Elam Converse, died March, 1870; James Kemp, died August, 1869; Abram Nash, died April, 1870; John Prescott, died September, 1869; Daniel Southwick, died December, 1869; Townsend M. Vail, died September, 1869; Emma Willard, died April, 1870; and one other distinguished citizen whose name did not appear in the first issue, simply because he was serving his country in other climes at the time, has also departed this life during the past year. We allude to Major-General John E. Wool, whose death occurred on the 10th day of November, 1869, at the age of eighty-five years, who for more than half a century devoted his energies in behalf of his country.

To the business men of the city, who have so generously given us patronage in the way of advertisements, and to those who have been courteous and obliging when called upon for information connected with this work, we return our thanks, and submit this volume to their consideration, trusting it may meet with their approval.

WM. H. YOUNG & BLAKE.

COURSES OF STUDY.

The following are the General Courses of Study of the Institute, each commencing with Division D, and extending over the period of four years, viz:

1. **Course of Civil Engineering.**
2. **Course in Mechanical Engineering.**
3. **Course in Mining Engineering.**
4. **Course in Natural Science.**

Upon the completion of any one of these General Courses, Students are admitted to the corresponding degree of Civil Engineer, of Mechanical Engineer, of Mining Engineer, or of Bachelor of Science.

TERMS OF ADMISSION.

Previously to examination the candidate must present testimonials of good moral character to the Director of the Institute.

For admission to Division D, at the opening of the Winter Session, the candidate must be at least sixteen years of age, and pass satisfactory examinations in Arithmetic, Geography, English Grammar, including Spelling, five chapters of Davies' Bourdon's Algebra and three books of Davies' Legendre's Geometry. For admission to advanced standing, at the opening of either the Winter or Summer Session, the candidate must be correspondingly older, and pass satisfactory examinations in the same, and also in all the previous studies of the Division which he proposes to enter. These examinations are extended and rigorous, including both Principles and Practical Examples.

SESSIONS AND VACATIONS.

The Scholastic year is divided into two Sessions. The first, or Winter Session, consists of twenty weeks, and is followed by a vacation of one week. The second, or Summer Session, consists of nineteen weeks, and is followed by a vacation of twelve weeks.

The Scholastic year of 1870–71 will commence on the 14th of September, 1870.

The Annual Register, giving full particulars, may be obtained at WM. H. YOUNG & BLAKE'S Book Store, or from

TESTIMONIALS.

Having attended an examination in Mathematics in Prof. Willson's school, I take pleasure in expressing my great satisfaction with the manner in which it was conducted, and with the excellence of the result. The thorough knowledge of principles exhibited by the members of the class, and their ready command of them in practical application, were a sufficient indication of the discipline they had received in this department of their training. I cordially recommend the school as one well worthy of general patronage.

DASCOM GREENE,
Prof. of Mathematics, &c., Rens. Pol. Institute.

TROY, June 30, 1859.

It is with great pleasure that the undersigned, having attended an examination in the classics held at Troy Academy, on the 7th of June, 1864, express their appreciation of the results of the training under Prof. Willson. The proficiency, both in the Latin and Greek languages, attained by those who have received instruction from him, their familiarity with the various forms, and their exactness in translation, testified in no doutful manner to the diligence and tact of their instructor. It should be stated in connection with the above, that the recitations were from portions of the work selected by the committee at the request of the Principal, and that no opportunity was given for any other preparation, than that already furnished by the discipline of the session.

THIS Company owns and controls the entire water power of the Mohawk River at Cohoes, and has constructed one of the *finest dams and Gate Houses* in the country to divert the water of the river to their canals, of which they have a series, so as to use the water under six different falls, having an aggregate head and fall of one hundred and twenty feet.

The company lease the water power with the lot at the rate of about *twenty* dollars per annum for a *horse power*. The power costs *less* than *one-third* of the cost of steam power, and is always ready and reliable.

Only about one-fourth of the available power is at present used, thus affording a large amount of power still available for manufacturing purposes.

Cohoes being centrally located, with easy facility for Railroad, Canal and River transportation to market, makes it one of the most desirable points for manufacturing in the United States.

TROY DAILY TIMES.

Served to City Subscribers at - - 20 cts. per week.
Mail Subscribers, per annum - - - $9.00.

The large circulation of the TIMES, unsurpassed by any of the Daily Journals out of New York city, makes the it great

ADVERTISING SHEET

of this section of the State. Advertisements always conspicuously inserted at reasonable rates.

As a newspaper, the TIMES has no rival. Every issue contains mention of whatever is fresh in the news world. Especial attention is given to the

LOCAL NEWS

not only of the city but of the county and surrounding country.

THE TROY WEEKLY TIMES.

The cheapest and best weekly paper published. It contains each week editorials on the leading subjects of the day; carefully prepared news events of the week; all the latest local news from the city and surrounding places; an excellent story and interesting miscellaneous reading matter.

Circulation larger than any other paper in the same locality. Terms $1.50 per year, invariably in advance.

TIMES' JOB PRINTING ESTABLISHMENT.

The Job Office of the TIMES is unexcelled in this section of the State in facilities for turning out work of every description.

Books, Pamphlets, Bill Heads, Circulars, Law Cases, Cards, Handbills, Mammoth Posters, etc.

are executed with a neatness, skill and expedition which cannot be excelled, if equalled, by any Job Printing concern in the State. Recent large additions of Plain and Fancy Type of the latest styles, and improved printing machinery, enable us to turn out beautiful specimens of typography.

Orders for the DAILY or WEEKLY TIMES, or for advertising and Job Work, addressed as below, will meet with prompt attention.

THE Troy Daily Whig,

ESTABLISHED IN 1834.

Delivered to City Subscribers at 20 Cents a Week;
To Mail Subscribers at $9.00 per Annum.

As a Newspaper, the TROY DAILY WHIG has *no rival*. Being the only morning Paper north of Albany in this State, it has several hours the start of other Journals in giving reliable, valuable and fresh news from all parts of the globe. It contains all the local news of the preceding day. It has a large circulation among MERCHANTS, MANUFACTURERS, MECHANICS, MILLERS, BANKERS, BROKERS, all classes of BUSINESS MEN and PRIVATE FAMILIES in the city and surrounding villages, and in the country north to the Canada line.

☞ ADVERTISEMENTS INSERTED CONSPICUOUSLY AT REASONABLE TERMS. ☜

THE TROY WEEKLY WHIG.

Terms to Mail Subscribers, $1.50 per Annum.

The TROY WEEKLY WHIG is a large newspaper, well filled with matter carefully selected from the Daily. It contains all the news of the week in condensed form, leading editorials on different subjects, interesting stories, useful information, and all market reports worth publishing. AS A FAMILY NEWSPAPER IT HAS FEW EQUALS.

☞ Orders for the Daily or Weekly Whig, for Advertising in either or both, or for Job Work of any kind sent to the **TROY WHIG PRINTING HOUSE**, or left at the Counting Rooms, 219 River Street, will meet with prompt attention.

In its various branches executed at this Office with neatness and dispatch.

THE SATURDAY BULLETIN,

AN INDEPENDENT LOCAL NEWSPAPER,

Published at 218 River St., Troy, Every Saturday Afternoon.

L. C. STRONG, F. T. PATTON, } Editors and Proprietors.

The circulation of THE BULLETIN is unexcelled in this section of the State. Its advantages as an advertising medium are very superior. It is more thoroughly and generally read than any other Troy paper. Its advertising space is limited, and no page is ever less than half reading matter, so that every advertisement is brought in close proximity to reading matter.

STRONG & PATTON,

Office, 218 River Street, Troy, Opposite the Times and Whig Offices.

"BURDEN BEST" BAR IRON.

We beg to call your attention to the superior and uniform quality of the "Burden Best" Iron. This Iron is particularly adapted to all purposes where great security is required, such as Railroad Bridges, Passenger Cars, Locomotives, Roofs of Buildings, Wagons, and in short, for all purposes where the breakage of a bolt or part of a machine would result in loss of life or limb.

The tensile strength of the "Burden Best" Iron is 78,000 lbs.. according to test made at the Cold Spring Foundry with Major Wade's United States Testing Machine.

AND DEALERS IN

CEMENT, CALCINED PLASTER AND MARBLE DUST,

17 to 27 Smith's Ave., North Troy,—20 Church St., Saratoga Springs, N. Y.

☞ These Sewer Pipes, made of Hydraulic Cement and Gravel, are especially adapted for Sewerage, Sink Drains and Conductors of Water in Cities and Villages, Conductors under Street Crossings, Railroad Embankments and Plank and Public Roads. Also, for Blow-Pipes, Well-Sides, Steam-Escapes, &c.

Important recommendations of this Pipe are Cheapness and Durability. They improve with age and use, and are easily and quickly laid, forming a perfect joint.

Their perfect smoothness gives them a capacity of at least 30 per cent. over brick, stone or wood sewers of the same size, and prevents them from collecting sediments from sink or other drains.

All orders will receive prompt attention by addressing

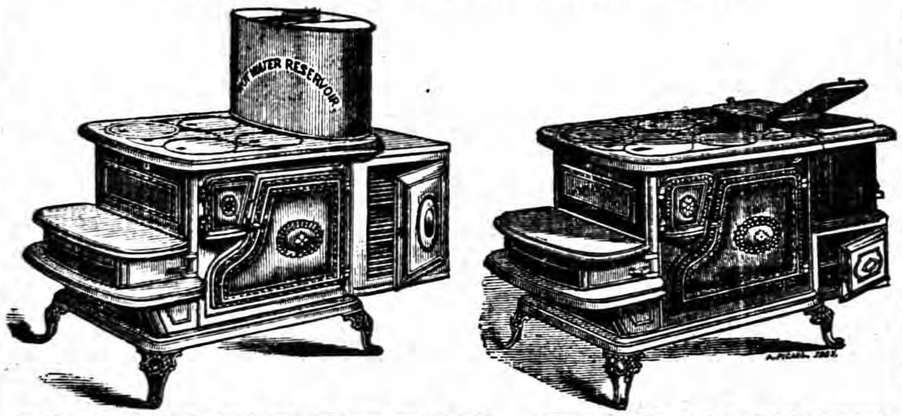
THE NEW EMPIRE

HOT AIR, GAS AND BASE-BURNING



COOKING STOVE,

With Copper or Cast Iron Reservoir and Square Top,

FOR WOOD OR COAL.

The New and the Young Empire

ARE THE

ONLY FIRST CLASS COOKING STOVES

WHICH HAVE THE

HAWK'S AUXILIARY AIR CHAMBER ATTACHMENT,

PATENTED APRIL 23, 1867—RE-ISSUED AUGUST 3, 1868.

BY MEANS OF WHICH WE GUARANTEE

1st—A saving of fifty per cent in fuel.

2d—A fire may be maintained throughout an entire season with either wood or coal without rekindling, and not become dull through the accumulation of slag or ashes in the fire box; consequently the oven is at all times in baking order.

3d—A perfect consumption of gas and smoke, so that the damper in the smoke pipe may be kept closed the most of the time (thereby retaining the heat in the stove) without any escape of gas or smoke into the room.

4th—It makes perfect base burners of stoves to which it is applied. The fire being at all times bright on the grate, no clinkers form, and the slate in the coal is reduced to ashes and passes through the grate, instead of remaining in the fire box as cinders, as is the case with other stoves.

5th—The heat being retained in the stove to a very great extent, the temperature of the room is kept very uniform, there seldom being more than two degrees difference in temperature between the floor and ceiling.

6th—These stoves are easily managed; the fire can be perfectly controlled, so that there is no difficulty in making them the most comfortable stoves for summer as well as winter use.

7th—The best baking stove in the world. Ten loaves of bread can be baked in a No. 9 oven at the same time, uniform and even, without change.

We wish to call especial attention to our PATENT CAST IRON RESERVOIR, represented by above cut. One year's use of this Reservoir has demonstrated beyond all question that it is superior to anything of the kind yet produced. It is attached to the back of the stove, and is surrounded with a cast iron jacket, which forms a flue around the side and ends of the Reservoir. By opening a damper, hot air can be carried through this flue and around the Reservoir, so that water can be boiled in it in thirty minutes, or by keeping the damper closed, the water will be kept at a moderate heat, as in an ordinary Reservoir. The hot air in its passage around the oven does not come in contact with the Reservoir, as is the case with other cast iron reservoir stoves. This Reservoir being mounted outside of the back of the stove, completely protects the back from cold air, and thereby improves the baking qualities of the oven. The jacket surrounding this reservoir being made of cast iron and blacked the same as other parts of the stove, adds very much to the beauty of the stove.

We claim this to be THE BEST CAST IRON RESERVOIR IN MARKET, and after examination, we have no doubt dealers and the public generally will come to the same conclusion.

SALEM, N. Y., Feb. 15, 1869. Messrs. SWETT, QUIMBY & PERRY—*Gentlemen:* I exchanged with Mr. John Murphy, your agent at this place, a new Home Comfort Cook Stove (which I had used only about two months), and $14 besides, for one of your New Empire stoves, with which I am very much pleased, considering it in all respects a very superior Cooking Stove, consuming less coal for the amount of heat produced than any stove with which I am acquainted. With ordinary care and good coal, fire can be kept constantly burning four or five weeks without "dumping." I have been surprised at the small quantity of fuel which is consumed, and think that when you claim "a saving of fifty per cent. in fuel," you have not overestimated.

J. A. MCFARLAND, Principal Washington Academy.

PHARSALIA, Sept. 1st, 1869. Messrs. BROOKS & GOODWIN—*Gentlemen:* I purchased of you May 24th one of the New Empire Base-Burning Cooking Stoves, which you guaranteed to do as much business as any other stove with one-half the fuel. I confess I at first doubted; but to my astonishment, I soon became satisfied that it did not actually require over one-third the wood that I have formerly burned; and I must say that it is the best heating and burning stove that I ever saw. If it burns coal as well, and with as much economy as it does wood, it is the King of Stoves. Respectfully yours, JEFFERSON BLACKMAN.
